Rene Alvarez, Jr., FACC  
Pittsburgh

As Program Director for the Clinical Cardiology Electrophysiology Training Program at the University of Pittsburgh Medical Center, I am often asked to help the cardiology fellows become more comfortable with the wide array of arrhythmia and device issues that they will encounter when they take the cardiology boards or are “beyond the boards” in clinical practice. Over the years, this need has been met by a series of eight to ten focused presentations that cover the core topics. We have now decided to offer these presentations to all Pennsylvania Cardiology fellows-in-training.

In conjunction with the Pennsylvania Chapter of the American College of Cardiology, I would like to invite you to join a faculty of electrophysiologists from the University of Pittsburgh Medical Center for the first -“Electrophysiology for the Cardiology Fellow – The things you need to know for the boards and clinical practice.”

This program is scheduled for Saturday May 31, 2008 at the newly reopened Bedford Springs Resort in Bedford, Pennsylvania. The generous support of sponsors has made it possible for participants in this conference to receive:

- A complementary welcoming reception with the faculty, program participants (and their guest) on Friday evening May 30, 2008,
- One night complimentary room for you and a guest at the Bedford Springs Resort for Friday May 30, 2008 (guest meals on own) and
- The Electrophysiology for the Cardiology Fellow Program (along with breakfast and lunch for attendee) on Saturday May 31, 2008.

The program will be taught by a faculty of Board Certified Clinical Cardiac Electrophysiologists from the University of Pittsburgh Medical Center and will run from approximately 8:00 AM until 3:30 PM on Saturday May 31, 2008. If you would like to extend your stay accommodations are available for Saturday Evening May 31, 2008 at the Bedford Springs Resort at an additional charge.

The program outline is provided for your review and we hope you will find it interesting. This initial program is being offered to all Pennsylvania Cardiology Fellows in Training, but the space is limited, so we urge you to reserve your slot soon.

**Meeting Registrations** can be made on the PaACC's website at [www.pcacc.org](http://www.pcacc.org)  
Click the Fellows-In-Training Tab/ Click the Upcoming Events Link/ Click on the FIT  
EP Training Link

**Hotel Reservations** can be made by calling:
